# Contents

**ix**      **Course Overview**

**1**      **Unit 1:      Overview of SAP Business Planning and Consolidation**

- 1      Lesson: Introducing SAP Business Planning and Consolidation
- 1      Lesson: Using the Microsoft Excel Interface of the EPM Add-In
- 1      Lesson: Connecting and Configuring the Microsoft Excel Interface of the EPM Add-In

**3**      **Unit 2:      Basic Report Building in Microsoft Excel**

- 3      Lesson: Creating Reports with the EPM Report Editor
- 3      Lesson: Using the Member Selector
- 3      Lesson: Sorting, Filtering, and Ranking Data
- 3      Lesson: Using Read Only, Member Names, and Insertion Filtering
- 3      Lesson: Using Account Types and the Measures Dimension
- 4      Lesson: Using Member Recognition
- 4      Lesson: Using Local Members in a Plan Actual Variance Analysis

**5**      **Unit 3:      Enhancements to Microsoft Excel Reports**

- 5      Lesson: Linking Reports
- 5      Lesson: Formatting Reports
- 5      Lesson: Reporting on Multiple Sources
- 5      Lesson: Reporting by Using Axis Sharing
- 5      Lesson: Generating Worksheets
- 6      Lesson: Analyzing Data with Time Dependent Hierarchies

**7**      **Unit 4:      Report Functions**

- 7      Lesson: Creating Cell-Based Reports with Functions
- 7      Lesson: Creating Cell-Based Reports with Advanced Functions
- 7      Lesson: Using the EPMOlapMemberO Function
- 7      Lesson: Executing VBA and API Functions

**9**      **Unit 5:      Delivered Templates**

- 9      Lesson: Using Delivered Templates
- 9      Lesson: Creating Reports Using Best Practices

**11**      **Unit 6:      Everest Data Range Exchange (EvDRE) Reports**

- 11      Lesson: Comparing EvDRE to EPM Reports (Optional)
- 11      Lesson: Migrating EvDRE Templates

<b>13</b>	<b>Unit 7:</b>	<b>Distribution and Collection of Input Schedules</b>
13		Lesson: Configuring Distribution and Collection
13		Lesson: Distributing and Collecting Workbooks
<b>15</b>	<b>Unit 8:</b>	<b>Comments in SAP Business Planning and Consolidation</b>
15		Lesson: Describing the Comment Functionality in SAP Business Planning and Consolidation
15		Lesson: Entering Comments with the EPM Ribbon
15		Lesson: Managing Comment Data
<b>17</b>	<b>Unit 9:</b>	<b>The EPM Add-in Planning Functions</b>
17		Lesson: Using The Spread, Trend, and Weight Planning Functions
17		Lesson: Using Disaggregation
<b>19</b>	<b>Unit 10:</b>	<b>Business Process Flows (BPFs)</b>
19		Lesson: Positioning Planning Business Process Flows (BPFs)
19		Lesson: Using Reporting Business Process Flows (BPFs)
<b>21</b>	<b>Unit 11:</b>	<b>Web Interface in SAP Business Planning and Consolidation</b>
21		Lesson: Navigating in the Web Interface
21		Lesson: Creating Web Reports, Input Forms, and Workspaces
21		Lesson: Publishing Books
<b>23</b>	<b>Unit 12:</b>	<b>Drill Through</b>
23		Lesson: Positioning Drill Throughs
23		Lesson: Creating Drill Throughs for Web Sites
23		Lesson: Creating Drill Throughs for BW Queries
23		Lesson: Creating Drill Through for SAP ERP
<b>25</b>	<b>Unit 13:</b>	<b>Microsoft Word and Microsoft PowerPoint Reports with Live Data</b>
25		Lesson: Creating Reports with Microsoft Word and Microsoft PowerPoint
<b>27</b>	<b>Unit 14:</b>	<b>Dashboards</b>
27		Lesson: Creating a Dashboard

# Course Overview

## **TARGET AUDIENCE**

This course is intended for the following audiences:

- Application Consultant
- Business Process Owner/Team Lead/Power User
- Program/Project Manager

## Lesson 1: Introducing SAP Business Planning and Consolidation

### Lesson Objectives

After completing this lesson, you will be able to:

- Define the key terms of the planning and consolidation application
- Explain the positioning of the planning and consolidation application in the enterprise performance management (EPM) category of solutions
- List the benefits of the planning and consolidation application
- Describe the main components of the planning and consolidation application

## Lesson 2: Using the Microsoft Excel Interface of the EPM Add-In

### Lesson Objectives

After completing this lesson, you will be able to:

- Configure the Microsoft Excel interface
- Explain how to use the EPM pane to build a report

## Lesson 3: Connecting and Configuring the Microsoft Excel Interface of the EPM Add-In

### Lesson Objectives

After completing this lesson, you will be able to:

- List the main features of the EPM add-in
- Create a connection

## Lesson 1: Creating Reports with the EPM Report Editor

### Lesson Objectives

After completing this lesson, you will be able to:

- Identify the options for creating a report
- Create reports with the EPM Report Editor
- Use data analysis options

## Lesson 2: Using the Member Selector

### Lesson Objectives

After completing this lesson, you will be able to:

- Use hierarchies and attributes to select sort and subtotal

## Lesson 3: Sorting, Filtering, and Ranking Data

### Lesson Objectives

After completing this lesson, you will be able to:

- Explain the sort, filter, and rank data options

## Lesson 4: Using Read Only, Member Names, and Insertion Filtering

### Lesson Objectives

After completing this lesson, you will be able to:

- Use read only, member naming, and insertion filtering

## Lesson 5: Using Account Types and the Measures Dimension

### Lesson Objectives

After completing this lesson, you will be able to:

- Analyze data with account types and measures

## **Lesson 6: Using Member Recognition**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Create a report by using the Member Recognition feature

## **Lesson 7: Using Local Members in a Plan Actual Variance Analysis**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Use local members in a plan actual variance analysis

## Lesson 1: Linking Reports

### Lesson Objectives

After completing this lesson, you will be able to:

- Create different types of links

## Lesson 2: Formatting Reports

### Lesson Objectives

After completing this lesson, you will be able to:

- Configure a formatting style sheet
- Define formatting for hierarchies
- Define formatting for specific report items
- Apply formatting to a report or to a worksheet

## Lesson 3: Reporting on Multiple Sources

### Lesson Objectives

After completing this lesson, you will be able to:

- Create reports on different sources in the same worksheet

## Lesson 4: Reporting by Using Axis Sharing

### Lesson Objectives

After completing this lesson, you will be able to:

- Explain how to meet reporting requirements by sharing a report axis

## Lesson 5: Generating Worksheets

### Lesson Objectives

After completing this lesson, you will be able to:

- Generate a multiple worksheet report

## **Lesson 6: Analyzing Data with Time Dependent Hierarchies**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Analyze data with time dependent hierarchies

## Lesson 1: Creating Cell-Based Reports with Functions

### Lesson Objectives

After completing this lesson, you will be able to:

- Create reports with basic EPM cell functions
- Compare cell functions with Ev functions

## Lesson 2: Creating Cell-Based Reports with Advanced Functions

### Lesson Objectives

After completing this lesson, you will be able to:

- Use functions to override report items
- Use functions to retrieve dimension and member properties
- Use other advanced functions

## Lesson 3: Using the EPMOlapMemberO Function

### Lesson Objectives

After completing this lesson, you will be able to:

- Use the EPMOlapMemberO function

## Lesson 4: Executing VBA and API Functions

### Lesson Objectives

After completing this lesson, you will be able to:

- Create a button to execute functions in VBA

## Lesson 1: Using Delivered Templates

### Lesson Objectives

After completing this lesson, you will be able to:

- Describe the delivered templates

## Lesson 2: Creating Reports Using Best Practices

### Lesson Objectives

After completing this lesson, you will be able to:

- Explain reporting best practices

## Lesson 1: Comparing EvDRE to EPM Reports (Optional)

### Lesson Objectives

After completing this lesson, you will be able to:

- Compare EvDRE and EPM add-in report features
- Describe EvDRE parameters

## Lesson 2: Migrating EvDRE Templates

### Lesson Objectives

After completing this lesson, you will be able to:

- Describe the process of EvDRE migration
- Describe how specific EvDRE items are migrated
- Analyze the migration of EvDRE reports

## Lesson 1: Configuring Distribution and Collection

### Lesson Objectives

After completing this lesson, you will be able to:

- Create a distribution template

## Lesson 2: Distributing and Collecting Workbooks

### Lesson Objectives

After completing this lesson, you will be able to:

- Distribute workbooks

## **Lesson 1: Describing the Comment Functionality in SAP Business Planning and Consolidation**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Describe the comment functionality in SAP Business Planning and Consolidation

## **Lesson 2: Entering Comments with the EPM Ribbon**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Enter comments with the EPM ribbon

## **Lesson 3: Managing Comment Data**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Manage comment data

## Lesson 1: Using The Spread, Trend, and Weight Planning Functions

### Lesson Objectives

After completing this lesson, you will be able to:

- Use planning functions

## Lesson 2: Using Disaggregation

### Lesson Objectives

After completing this lesson, you will be able to:

- Disaggregate planning data

## Lesson 1: Positioning Planning Business Process Flows (BPFs)

### Lesson Objectives

After completing this lesson, you will be able to:

- Position BPFs using a BPF as a report launch pad

## Lesson 2: Using Reporting Business Process Flows (BPFs)

### Lesson Objectives

After completing this lesson, you will be able to:

- Use reporting BPFs

## Lesson 1: Navigating in the Web Interface

### Lesson Objectives

After completing this lesson, you will be able to:

- Connect to the Web client
- Describe the main components of the Web interface
- List the Features Available in the Web and Microsoft Excel Clients

## Lesson 2: Creating Web Reports, Input Forms, and Workspaces

### Lesson Objectives

After completing this lesson, you will be able to:

- Configure Web reports
- Create Web reports, input forms, and workspaces

## Lesson 3: Publishing Books

### Lesson Objectives

After completing this lesson, you will be able to:

- Configure book publication
- Publish books

## **Lesson 1: Positioning Drill Throughs**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Describe the configuration of drill throughs

## **Lesson 2: Creating Drill Throughs for Web Sites**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Create a Web site drill through

## **Lesson 3: Creating Drill Throughs for BW Queries**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Create a drill through to a BW query

## **Lesson 4: Creating Drill Through for SAP ERP**

### **Lesson Objectives**

After completing this lesson, you will be able to:

- Create a drill through for SAP ERP

## Lesson 1: Creating Reports with Microsoft Word and Microsoft PowerPoint

### Lesson Objectives

After completing this lesson, you will be able to:

- Create Microsoft Word and Microsoft PowerPoint reports

## Lesson 1: Creating a Dashboard

### Lesson Objectives

After completing this lesson, you will be able to:

- Create a dashboard
- Publish a dashboard
