## Course Overview

### Unit 1: SAP Integrated Business Planning

1. Lesson: Outlining the SAP Integrated Business Planning Solution Strategy
2. Lesson: Explaining the Functionality and Benefits of SAP Integrated Business Planning
3. Lesson: Describing the Architecture of SAP Integrated Business Planning Powered by HANA
4. Lesson: Explaining SAP Integrated Business Planning Powered by HANA Out-of-the-Box Content

### Unit 2: User Interface

2. Lesson: Navigating in the SAP Integrated Business Planning Web UI
3. Lesson: Personalizing the SAP Fiori Launchpad
4. Lesson: Configuring an Integrated Business Planning Connection with Microsoft Excel

### Unit 3: Configuration

5. Lesson: Using Configuration to Model a Business
6. Lesson: Creating an Attribute
7. Lesson: Creating a Simple Master Data Type
8. Lesson: Creating a Compound Master Data Type
9. Lesson: Creating a Time Profile
10. Lesson: Creating a Planning Area
11. Lesson: Creating a Planning Level
12. Lesson: Creating a Key Figure
13. Lesson: Writing a Key Figure Calculation
14. Lesson: Creating a Version

### Unit 4: Model Activation

7. Lesson: Activating a Planning Area
8. Lesson: Creating a Reason Code

### Unit 5: Cloud Security

9. Lesson: Outlining Cloud Security

### Unit 6: Data Integration

11. Lesson: Identifying Data Import Options
12. Lesson: Importing Data Using the SAP Integrated Business Planning Web UI

TARGET AUDIENCE
This course is intended for the following audiences:

- Application Consultant
- Business Analyst
- Business Process Architect
- Business Process Owner/Team Lead/Power User
- Data Consultant/Manager
- Database Administrator
- Development Consultant
- Help Desk/CoE Support
- Program/Project Manager
- Solution Architect
- System Architect
- Technology Consultant
- Trainer
Lesson 1: Outlining the SAP Integrated Business Planning Solution Strategy
Lesson Objectives
After completing this lesson, you will be able to:
• Outline the SAP Integrated Business Planning solution strategy

Lesson 2: Explaining the Functionality and Benefits of SAP Integrated Business Planning
Lesson Objectives
After completing this lesson, you will be able to:
• Explain the functionality and benefits of SAP Integrated Business Planning

Lesson 3: Describing the Architecture of SAP Integrated Business Planning Powered by HANA
Lesson Objectives
After completing this lesson, you will be able to:
• Describe the architecture of SAP Integrated Business Planning powered by SAP HANA

Lesson 4: Explaining SAP Integrated Business Planning Powered by HANA Out-of-the-Box Content
Lesson Objectives
After completing this lesson, you will be able to:
• Explain SAP Integrated Business Planning powered by HANA out-of-the-box content
UNIT 2 User Interface

Lesson 1: Navigating in the SAP Integrated Business Planning Web UI
Lesson Objectives
After completing this lesson, you will be able to:

- Navigate in the SAP Integrated Business Planning Web UI

Lesson 2: Personalizing the SAP Fiori Launchpad
Lesson Objectives
After completing this lesson, you will be able to:

- Personalize the SAP Fiori launchpad

Lesson 3: Configuring an Integrated Business Planning Connection with Microsoft Excel
Lesson Objectives
After completing this lesson, you will be able to:

- Configure an Integrated Business Planning Connection with Microsoft Excel
- Create a planning view in the SAP Integrated Business Planning Microsoft Excel UI
Lesson 1: Using Configuration to Model a Business

Lesson Objectives
After completing this lesson, you will be able to:

- Use configuration to model a business

Lesson 2: Creating an Attribute

Lesson Objectives
After completing this lesson, you will be able to:

- Create an attribute

Lesson 3: Creating a Simple Master Data Type

Lesson Objectives
After completing this lesson, you will be able to:

- Create a simple master data type

Lesson 4: Creating a Compound Master Data Type

Lesson Objectives
After completing this lesson, you will be able to:

- Create a compound master data type

Lesson 5: Creating a Time Profile

Lesson Objectives
After completing this lesson, you will be able to:

- Create a time profile

Lesson 6: Creating a Planning Area

Lesson Objectives
After completing this lesson, you will be able to:

- Create a planning area

**Lesson 7: Creating a Planning Level**

**Lesson Objectives**
After completing this lesson, you will be able to:

- Create a planning level

**Lesson 8: Creating a Key Figure**

**Lesson Objectives**
After completing this lesson, you will be able to:

- Create a key figure using an attribute
- Create a key figure

**Lesson 9: Writing a Key Figure Calculation**

**Lesson Objectives**
After completing this lesson, you will be able to:

- Write a key figure calculation

**Lesson 10: Creating a Version**

**Lesson Objectives**
After completing this lesson, you will be able to:

- Create a version
Lesson 1: Activating a Planning Area

Lesson Objectives
After completing this lesson, you will be able to:

• Activate a planning area

Lesson 2: Creating a Reason Code

Lesson Objectives
After completing this lesson, you will be able to:

• Create a reason code
Lesson 1: Outlining Cloud Security

Lesson Objectives
After completing this lesson, you will be able to:

- Outline Cloud security
Lesson 1: Identifying Data Import Options
Lesson Objectives
After completing this lesson, you will be able to:

• Identify data import options

Lesson 2: Importing Data Using the SAP Integrated Business Planning Web UI
Lesson Objectives
After completing this lesson, you will be able to:

• Import data using the SAP Integrated Business Planning Web UI
Lesson 1: Creating a Visibility Filter
Lesson Objectives
After completing this lesson, you will be able to:
• Create a visibility filter

Lesson 2: Modifying a Role
Lesson Objectives
After completing this lesson, you will be able to:
• Modify a role

Lesson 3: Creating User Preferences
Lesson Objectives
After completing this lesson, you will be able to:
• Create user preferences
Lesson 1: Creating a Microsoft Excel Template and Favorite

Lesson Objectives
After completing this lesson, you will be able to:

• Create a Microsoft Excel template and favorite

Lesson 2: Performing a Simulation

Lesson Objectives
After completing this lesson, you will be able to:

• Perform a simulation

Lesson 3: Formatting a Planning View

Lesson Objectives
After completing this lesson, you will be able to:

• Format a planning view
Lesson 1: Incorporating Disaggregation Methods in SAP Integrated Business Planning

Lesson Objectives
After completing this lesson, you will be able to:

- Incorporate disaggregation methods in SAP Integrated Business Planning
Lesson 1: Modeling a Business Process Using SAP Integrated Business Planning

Lesson Objectives
After completing this lesson, you will be able to:

- Model a business process using SAP Integrated Business Planning

Lesson 2: Creating a Dashboard Chart

Lesson Objectives
After completing this lesson, you will be able to:

- Create a dashboard chart

Lesson 3: Creating a Drill-Down

Lesson Objectives
After completing this lesson, you will be able to:

- Create a drill-down
Lesson 1: Deleting an Active Object

Lesson Objectives
After completing this lesson, you will be able to:

- Delete an active object
Lesson 1: Adding Rough Cut Supply Configuration to an Active Planning Area

Lesson Objectives
After completing this lesson, you will be able to:

- Add rough cut supply configuration to an active planning area

Lesson 2: Setting up an alert in a favorite

Lesson Objectives
After completing this lesson, you will be able to:

- Set up an alert in a favorite

Lesson 3: Copying Data Between Versions

Lesson Objectives
After completing this lesson, you will be able to:

- Copy data between versions
Lesson 1: Creating a Helper Key Figure

Lesson Objectives
After completing this lesson, you will be able to:

- Create a helper key figure
Lesson 1: Managing a Forecast Model
Lesson Objectives
After completing this lesson, you will be able to:

• Create a forecast model
• Execute and simulate forecasting

Lesson 2: Creating a Global Configuration Parameter
Lesson Objectives
After completing this lesson, you will be able to:

• Create a global configuration parameter
Lesson 1: Analyzing the SAP2 Model

Lesson Objectives
After completing this lesson, you will be able to:

• Analyze the SAP2 model
Lesson 1: Creating a Key Figure Using Other Periodicities

Lesson Objectives
After completing this lesson, you will be able to:

• Create key figures using other periodicities
Lesson 1: Using SAP Preferred Naming Conventions

Lesson Objectives
After completing this lesson, you will be able to:

• Use SAP preferred naming conventions
Lesson 1: Configuring and Using Change History

Lesson Objectives
After completing this lesson, you will be able to:

• Configure and use change history
Lesson 1: Creating a SAP Jam Group

Lesson Objectives
After completing this lesson, you will be able to:

• Create a SAP Jam group

Lesson 2: Creating a Task

Lesson Objectives
After completing this lesson, you will be able to:

• Create a task
