The way certifications are reported will be adjusted to provide greater data protection. Rather than disclosing exact numbers, we will be providing ranges of certified consultants per partner. Additionally, to align with our partnership structure, we will only report on Cloud Certifications that are relevant to the [Partner Competency Framework](#).

The data above currently considers certified Individuals holding certificates of the last 10 years.

*Note that some partners, including but not limited to PwC, have large numbers of Certified SAP consultants but have chosen not to have their certification data published on this list.*

Wipro	1000 - 2500	< 250	< 250	250 - 500	< 250	2500 - 5000	< 250	2500 - 5000

The way certifications are reported will be adjusted to provide greater data protection. Rather than disclosing exact numbers, we will be providing ranges of certified consultants per partner. Additionally, to align with our partnership structure, we will only report on Cloud Certifications that are relevant to the [Partner Competency Framework](#).

The data above currently considers certifications issued during the last 10 years.

# Solution Areas

<b>Business Technology Platform</b>	Planning and Analytics, Database and Data Management, AppDev/Automation and Integration
<b>Customer Experience</b>	Sales and Service, Customer Data Solutions, Marketing, Commerce
<b>Intelligent Spent and Business Networks</b>	Procurement, External Workforce, Business Network
<b>SuccessFactors (HXM)</b>	Core HR and Payroll, Learning and Talent, Sales Performance Management, SuccessFactors Cross
<b>Business Transformation</b>	SAP Signavio
<b>S/4HANA</b>	Finance, Q2C and Enterprise Management, Digital Supply Chain, Industry-specific Applications, ERP for SME
<b>Supporting Solution Areas</b>	Training and Adoption, Cross Business Services, Others

The Solution Area Hierarchy (as an evolution of the Portfolio Area Hierarchy) is a product structure that contains all of SAP's products and services and that is used to manage SAP's product and service portfolio for a common SAP framework across development, marketing, sales strategy, and execution.

It serves as the main structure for product-related planning and reporting.
